

Maybe This Time

by Rick Lang

I'd waited so long, since I heard love's song
Play its sweet melody in my mind
My dreams had been broken, but my heart keeps hopin'
That love will find it's way, back to stay this time

***CHORUS**

Maybe this time we'll find a way
Maybe this time our hearts won't break
And we won't let love slip away
Maybe this time love is hear to stay

Then like a bright star, you walked into my heart
And love's burning light lit up the sky
We'll try not to make, the same old mistakes
That cause hearts to break and tears to fall
